To

The Presidents
Dist. & Taluk. Boards
of Districts

Sir,

A remark having been made in the Plague Administration Report of one of the Districts that no expenditure was incurred on account of Plague preventive measures during 1914-15, as no funds were allotted for the purpose out of the provincial grant sanctioned for the year, I have the honor to invite reference to para 5 of Government Order No. 6381-92 Sany. 250-07-33 dated the 8th March 1912, directing that all expenses in connection with Plague prevention should ordinarily be treated as a legitimate charge ~~of~~ on the funds of the local bodies concerned. You will doubtless agree with me that the need ~~for~~ that exists for prompt action in regard to providing facilities for evacuation, affording medical and nursing aid and relieving distress of other nature is imperative; and that the measures, to be effective, necessarily involve an expenditure of considerable sums of money. The respensibility of advising as to the measures actually necessary and to seek orders for practical action will, of course, rest with the Dist. Sany. Officer who may,

may, in so far as combating of epidemics is concerned, be empowered to fully utilise the services of Sanitary Inspectors. To further ensure success, the District Sanitary Officer may, if you see no objection, be allowed an imprest from Local Funds to be utilised for emergent expenses and accounted for in due course. In case any local body is unable to meet the charge in full I shall be always prepared to transmit to Government applications for a grant-in-aid from Plague Funds. But what I would beg to particularly bring to your notice is that the transfer by Government, from themselves to the local bodies, of the responsibility of taking effective steps for combating a plague epidemic ought not to result in a relaxation of effort in any direction.

I have the honor to be,
Sir,
Your most obedient servant,

Sd/- T.V. Arumugum.

Sanitary Commissioner.
